Dear Mrs. Wood :-

I understand that somebody left some plants which he wished give me at your house, and that you very kindly offered to take charge of them in our absence. If they are the least bit of trouble to you, please telephone me at ~~0785~~ 0788 Flushing and I will come down and take them off your hands. I do not want you to bother to answer this letter and if I hear nothing from you I will take the liberty of assuming that they are not too much in the way.

With kind regards, I am

Yours very truly,

William B. Sprague

Dear Mr. Sprague:

I reached home yesterday after a month's absence, and the people who were in our house say that no plants were left there for you. Possibly, they were left with your neighbours on the other side - the Hanleys.

Very truly yours,
